WOMEN WRITERS.

It is a thousand pities that most of the clever women who write so airily and magazines should devote themselves to the fancied wrongs needs and peculiarities of their sex. A very interesting sex it is-the most interesting in existence; but it is one that the majority of men find a pleasstudying for themselves. Then, again the gifted women wield the facile pens should, in justice to themselves, write has carried off many a brave man in elevator. Too bad Doc. of topics of universal interest. Most the prime of health and strength, to his -Rev. "MURDER WILL OUT." As an apparent verification of the trite adage that "murder will out," we have the cases of Jesse Billings and Rev. Herbert Hayden up again in new phases. With the main features of these the readers of the Bazoo are the charge of Drs. Haynes and Brownfamiliar, and we have hitherto alluded to the testimoney as being principally Mrs. George, on Gandy street, where circumstantial, given by experts, and failing to show what is called sufficient motive. Mr. Hayden was relieved of the charge in an ex-parte examination this quarter. He had been employed of his case and the jury trying Mr. by the company not more than a Billings disagreed. As to the former it is singular to relate that he has been indicted and will be formally tried on recently discovered evidence growing out of the statement of a spiritualistic medium, that Mary Stannard was poisoned, and Hayden's confession that he had "purchased arsenic how much one true, earnest mother did to destroy rats in his barn," just previous to the murder. The body of
the murdered girl has been exhumed
